

Kenya packing checklist

Terrain runs from 1,000 to 2,000m. It can be hot in the lowlands and cold at height, so pack for both. Tick these boxes in any PDF reader and save, or print it and use a pen.

ALTITUDE

Takeoffs sit between 1,000 and 2,000m, and you can expect to climb to 4,000m, where it is cold.

CONDITIONS

Kenyan conditions are stronger than most home sites. Bring gear you trust.

IF IT GOES WRONG

Helicopter rescue and good healthcare are both available.

Clothing ¹¹

- ☐ Long trousers
Against thorns, sunburn and mosquitoes
- ☐ Long sleeved shirts
- ☐ Hiking shoes
Comfortable, already broken in
- ☐ Socks, two pairs
- ☐ Underwear, two pairs
- ☐ T-shirts, two
- ☐ Flying gloves
It is cold at 4,000m
- ☐ Warm flying jacket
- ☐ Sunscreen and sunglasses
- ☐ Buff
For the dusty roads
